

# 2015 Elderly Helper

KAM Ching-hei, LEUNG Wang-chun and MA Ka-yu were awarded the Merit Medals in Physics and Engineering Category (Senior Forms) in the Hong Kong Youth Science & Technology Innovation Competition 2015.

## Inspiration:

The elderly may need a significant amount of help to do shopping but sometimes not everyone can give them a helping hand. The product was designed for helping the elderly carry heavy items to better solve their daily problems.
